| • Interests: | Coding, App Development, Game Development, Video Editing |
| • Soft Skills: | Good Communication skills, Quick Learner, Good Observer |
-

EXPERIENCE

- Volunteer in St. Xavier's College annual tech fest eXabyte 2024, organized by the Computer Science Department.
- Part of the sponsorship team in the annual college fest of St. Xavier's College, Xavotsav 2024.
- Participated in ED Datathon 2024, a coding competition organized by the Department of Data Science of the St. Xavier's College.
- Participated and achieved the third prize in Ad Film making contest in Xavotsav 2024, organized by St. Xavier's College.
- Participated and achieved the first prize in the coding event of Astrovaganza 2025, organized by the Astronomical Society of St. Xavier's College.
- Completed a social internship of 3 months from National NGO, SMILE FOUNDATION.
- Participated and achieved the second prize in the coding event of Xavrang 2025, organized by St. Xavier's University.

- Participated and achieved the third prize in the coding event of SIGMA 2025, organized by the Science Association of St. Xavier's College.
 - Organized eXathon, a hackathon, as its event head in the annual tech fest eXabyte 2025, organized by the Computer Science Department of St. Xavier's College.
-

CERTIFICATES

- Bootcamp on BIG DATA AND DATA SCIENCE conducted by NIELIT KOLKATA
 - Bootcamp on BLOCKCHAIN conducted by NIELIT KOLKATA
 - Bootcamp on BIG DATA ANALYTICS conducted by NIELIT KOLKATA
 - Digital Marketing course from IIDE
 - Social Internship Program from SMILE FOUNDATION, India
 - Google Developer Student Club (GDSC) Bootcamp on AI/ML
-

PROJECTS

- **Simple Calculator:** Created a simple web-calculator using HTML, CSS and Javascript.
 - **ATM Demo Webapp:** Created an ATM transaction demo web application that can imitate the debit, credit and view balance operations of an ATM using HTML, CSS and Javascript.
 - **Restaurant Bill Generator Webapp-** Created a simple Restaurant Bill Generator webapp that would generate a bill after selecting the items that a person has ordered using HTML, CSS and Javascript.
 - **Hospital Database-** Created a simple hospital database with few information pages, a login page, a data insertion page, a data deletion page, a data update page and a data display page along with a bill calculator page using HTML, CSS, Javascript and PHP. (undeployed)
-
